

59000 Series Enamel Plus Gloss Screen Ink Color Chart

Metal Decorating Inks

Color charts represented on Nazdar.com are provided to give printers a general idea of the colors available in Nazdar ink lines. Due to the wide variations and inconsistencies in computer monitors and digital color palettes, the colors seen here are only approximations of actual ink colors. To receive accurate color charts, please contact your [local Nazdar ink distributor](#), or contact Nazdar Customer Service at custserv@nazdar.com.
