

HP Latex 375 Printer

Gain more unattended printing at lower cost of operation with this full-feature 64-inch printer

Expand your applications—beat client expectations

- Get higher margins³ printing on traditional signage substrates and beyond—even textiles¹—up to 64 inches.
- Reach more indoor spaces, like healthcare—water-based HP Latex Ink prints are odorless.¹
- Enjoy efficient, automated double-sided banner printing.
- Produce sharp, consistent, repeatable image quality with high-efficiency curing, 6 colors, and 1200 dpi.

Same-day delivery with more unattended production

- High quality at high speeds—334 ft² (31 m²)/hr high-speed outdoor quality with HP OMAS, HP Latex Optimizer.⁴
- Increase unattended printing with confidence—change 3-liter HP Latex Ink cartridges while the printer runs.
- Reach production speeds and avoid wait time—prints come out completely dry and ready to finish and deliver.
- You can minimize damage risk—scratch resistance is comparable to hard-solvent inks on SAV and PVC banner.²

Keep running costs low with 3-liter ink cartridges

- Help reduce your cost per print with cost-effective, 3-liter HP 871 Latex Ink Cartridges.³
- Reduce time—HP Custom Substrate Profiling and i1 embedded spectrophotometer make ICC profiling automatic.⁵
- Maintain high image quality over the life of the printer with user-replaceable HP Thermal Inkjet printheads.
- Monitor your printer remotely with the free HP Latex Mobile app.⁶

¹ Performance may vary depending on media—for more information, see <http://www.hp.com/go/mediasolutionslocator>. For best results, use textiles that do not stretch. The ink collector is required for porous textiles. Odorless prints: there is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

² Estimates by HP Image Permanence Lab on a range of media. Scratch-resistance comparison based on testing HP Latex Inks and representative hard-solvent inks. Outdoor display permanence tested according to SAE J2527 using HP Latex Inks on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. Laminated display permanence using HP Clear Gloss Cast Overlaminate. Results may vary based on specific media performance.

³ For the HP Latex 375 Printer using cost-effective, high-capacity HP 871 3-liter Latex Ink Cartridges compared to the HP Latex 365 Printer using HP 831 775-ml Latex Ink Cartridges.

⁴ Banner-quality prints in outdoor (4-pass 4-color) mode.

⁵ ICC profiling with the spectrophotometer does not support uncoated textiles and backlits.

⁶ HP Latex Mobile is compatible with Android™ 4.1.2 or later and iOS 7 or later, and requires the printer and the smart phone or tablet to be connected to the Internet.

ECO highlights

- Better for printing companies/operators—no special ventilation or HAPs¹
- Better for the end-customer, more differentiation—odorless prints reach more indoor spaces²
- Better for the environment—HP designs end-to-end sustainability into large-format printing
- HP Latex Inks are UL GREENGUARD GOLD Certified³

Please recycle printing hardware and eligible printing supplies. Find out how at our website: <http://www.hp.com/ecosolutions>

¹ Special ventilation equipment (air filtration) is not required to meet U.S. OSHA requirements. Special ventilation equipment installation is at the discretion of the customer—see the Site Preparation Guide for details. Customers should consult state and local requirements and regulations. Contains no Hazardous Air Pollutants according to EPA Method 31.1.
² There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.
³ UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit <http://www.ul.com/gg> or <http://www.greenguard.org>.
